

Pharmacy (MPharm, MPhil, PhD)

The lists below are but a small example of the hiring companies that recruited our students to work after graduation.

- Data generated from the HESA Graduates Outcomes, bi-annual UNM Graduate Destination Survey, and MOHE Tracer Study.
- The information list for undergraduates only applies to MPharm (2+2) degree graduates.
- However, for postgraduates, it is applicable to MPhil and PhD in Pharmacy.

Did you know?

You could work as a pharmacist in the community, at a GP surgery, or in a hospital. If you are interested in the research and development of new drugs, you may consider industrial pharmacy. Industrial pharmacists work with scientists in other areas to discover safe and effective drugs. Other roles would include pharmacy research, veterinary pharmacy, regulatory pharmacy, drug discovery, and medicines manufacture.
